SIESTA T65 HFL

# CONTENTS

» Families. Couples. Sportspeople. Bon vivants. Leisure dreams are individual. We have the right motorhome for every requirement – with the best possible practical benefits for an unforgettable holiday.«

Harald Striewski, Company owner

**MY HOBBY**

SIESTA V60 GF

*» Here today, there tomorrow.  
Simply being spontaneous – whether it's in  
the city or in the countryside. That's freedom.«*

## SIESTA VAN

SIESTA V65 GE

Single bed

Compact washroom with integrated shower cubicle

Practical kitchen

## DYNAMIC CITY HOPPER

Do you also like to discover Europe's cities on holiday? But do not want to be without your mobile home when doing so? Then the SIESTA VAN is the motorhome for you.

With a width of 2.18 metres, you can drive the SIESTA VAN even along narrow streets and around big cities in a relaxed fashion. You will come to appreciate the slim design especially when looking for a parking space!

The SIESTA VAN is available in two layouts – depending on whether you prefer a double or single bed. Both models are equipped with a cleverly arranged washroom, a spacious kitchen and plenty of storage room with a payload of up to 849 kg. Like all SIESTA models, the roofs and undercarriages on the SIESTA VAN are also coated with GRP and feature the newly developed and patented HOBBYTherm® vehicle floor.

# SIESTA VAN

SIESTA V60 GF

## HIGHLIGHTS

-  Total length from 5,999 mm

 Body width from 2,180 mm

 Low-frame chassis

 Technically permissible maximum laden mass 3.5 t

 Payload up to 849 kg (depending on model)
-  Roof and floor made of GRP

 Patented HOBBYTherm® vehicle floor

 Maximum garage size due to lowered rear (V65 GE)

 LED lighting technology

 TRUMA Combi 4 hot air heater

## GOING TO BED IN COMFORT

Do you know exactly what you want? And do you place great emphasis on comfort and freedom of movement even when you are travelling? Then you will like the SIESTA.

With six models, the semi-integrated motorhomes offer you the largest choice out of the SIESTA series. Above all, the bedroom areas are tailored to a wide range of needs – from a comfortable double bed to practical single beds and a generous queen-size bed. If you are travelling with more than two people, the T65 HFL with drop-down bed is the ideal solution.

The kitchen, washroom and living area in the SIESTA are designed for a generous sense of space in all models. This is ensured by clever detailed solutions and intelligent functions. As with all SIESTA models, the newly developed and patented HOBBYTherm® vehicle floor is also used on the semi-integrated motorhomes. The standard GRP coating protects the roof and undercarriage.

## SIESTA ALKOVEN

# SIESTA ALKOVEN

## A DREAM FOR THE WHOLE FAMILY

Do you travel with children and all your gear? Perfect – with up to six beds, the SIESTA ALKOVEN provides more than enough space for the whole family.

Parents will find a comfortable place to sleep in the extra-large over-cab bed or in the French bed. Children will feel at home in the bunk beds specially designed for their needs. Despite plenty of room for everyone to sleep, there is still enough freedom to move. For example, the slatted frame on the over-cab bed can be moved. This creates plenty of room to the cab.

Lots of people mean lots of luggage. No problem: large wardrobes, drawers and shelves provide plenty of storage space. Anything that cannot be put away there will find room in the spacious garage.

## SIESTA ALKOVEN

SIESTA A55 GS Sport

## SPORTY, SPORTY

Do you want to be active on holiday? And have all your sports equipment to hand at all times? Then you will be thrilled, above all, by the extra-large garage in the A55 GS Sport.

With a capacity of up to 3,260 litres and a payload of almost 750 kg, the XXL garage offers room for a great deal of sporting accessories. Loading is easily done by hand thanks to the particularly large hatch with a wide opening angle. Adjustable lashing eyes and rails in three different heights hold the equipment securely in place.

Do you need a fourth bed? If you want, there is room for a second folding bed in the garage. The additional bed will not impair the storage space: the mattress and slatted frame are divided into three and can be folded up into a small pack size.

Despite its generous storage space, the body of the A55 GS Sport is surprisingly only 5.64 m long – and is therefore ideal for drives full of bends to faraway spots.

XXL garage with a capacity of up to 3,260 litres

Two full-size beds thanks to an extra bed

Folding beds create plenty of storage space

# SIESTA ALKOVEN

- **HOBBYTherm®thermo-function floor**

The sandwich construction of the HOBBYTherm® floor is based on a form of high-strength XPS thermal insulation. The material is particularly damp-resistant and rot-proof.

- **GRP undercarriage**

Durable and water-resistant: all SIESTA models are fitted with a GRP undercarriage as standard.

- **Durable GRP roof**

The GRP roof dampens the sound of rain and provides much improved hail protection compared to conventional aluminium roofs. That saves money when it comes to insurance premiums.

- **Sunroof in cab**

The sunroof with integrated pleated blind provides more light in the cab of the SIESTA VAN and SIESTA. For even better insulation, the complete roof panel is also backed with foam.

- **Insulated roof hoods from DOMETIC SEITZ**

All motorhomes have up to two DOMETIC SEITZ roof hoods as standard. The large Midi-Heki or the smaller Mini-Heki ensure the best insulation, optimal ventilation and a friendly atmosphere.

- **Flat vent windows**

The particularly flat, double-glazed and tinted insulated windows can be opened widely and underline the dynamic exterior design.

- **Combi-cassette with pleated blinds and insect screen**

All side windows are equipped with combi-cassette blinds to protect against the sun and insects.

- **Extendible entry access step and sturdy side aprons**

The electrically extendible entry access step makes it easier to get in and out. The shapely apron strip is made of aluminium and is therefore particularly resistant to damage.

# DESIGN

- **Body door with window and storage compartments**

The body door is equipped with sturdy hinges. The window with integrated pleated blind allows you to choose between a clear view or privacy. The storage draws have space for bits and pieces. The handle on the entrance helps you to climb in.

- **Third brake light and preparation for reversing camera**

The third braking light in LED technology ensures safety on the roads. Pre-installed, interior cable ducts make it easier to subsequently install a reversing camera.

- **LED entry light**

The LED entry light helps you to see clearly when getting in and out.

- **Central locking with remote control**

The cab doors can be locked at the press of a button. Combined with the optional radio alarm system (incl. gas detector), this makes for perfect break-in protection.

- **Insect screen for entrance door**

The insect screen integrated for the entrance door keeps mosquitoes and other pests at bay.

- **LED position light**

Stay visible at all times even during the day, thanks to bright LED position lights.

- **Elegant awning by THULE OMNISTOR**

Protects against sun and rain: the THULE OMNISTOR awnings are perfectly matched to the respective length of the Hobby motorhomes.

- **Powerful rear supports**

The rear supports made of fibre-reinforced plastic and aluminium weigh just six kilograms and provide totally secure support with a load-bearing capacity of 500 kg.

• Series equipment    ○ Special accessories

# SAFETY DESIGN

- **Folding pleated blind system in the cab**  
The tried-and-tested REMIS pleated blind system for the cab protects against unwanted looks and sunshine.

- **Comfortable interior standing height**  
Thanks to the interior standing height of 1.98 m, even tall people have enough headroom. The over-cab bed areas even have a headroom of 2.15 m.

- **Decorative wood trim**  
The fresh decorative furniture trim 'Maple light' with its dark applications creates a friendly and light atmosphere.

- **Cocoa upholstery**  
(Standard upholstery, not in A55 GS Sport)

- **Reading spotlights above the seating unit**  
The modern LED spotlights give off a cosy light for games evenings, evening reading or good conversations.

- **Pivoting table extension**  
The table can be extended by an extra tabletop with a simple action. (not in A65 GM and A70 GM)

- **Laguna upholstery**  
(standard in the A55 GS Sport)

- **Montana upholstery**

Note: Even the driver's seats can be covered in the living compartment fabric. The optional carpet rounds off the overall ambience perfectly.

# LIVING COMPARTMENT

- **Spacious Slim Tower refrigerator**

Improved sense of space thanks to reduced installation depth: the Slim Tower refrigerator developed by Hobby with a capacity of 140 litres, LED interior lighting and removable freezer compartment. The large handle is easy to operate.

The slightly elevated installation position means no more awkward bending over. (standard in many models)

- **DOMETIC SEITZ refrigerator**

This refrigerator from the DOMETIC Series 8 has a capacity of 96 l. It also benefits from a removable ice box and simple operation. (depending on model)

- **LED work surface lighting**

The bright LED spotlights ensure optimal illumination in the kitchen.

- **Kitchen drawers in comfort size**

The large drawers with full extension provide a good view and easy access. The soft-close mechanism ensures the drawers close softly and quietly. They are locked using high-quality push-lock mechanisms.

- **Three-flame cooker with automatic ignition**

Up to three dishes can be cooked at once on the stainless steel cooker, also in larger pans thanks to clever partition. The ignition safety device stops the flow of gas when the flame goes out. The glass cover acts as an additional workspace.

- **Kitchen power socket**

Practical detail: the 230 V socket in the kitchen.

- **Stainless steel sink**

Larger pans also fit easily in the sink, which features a full-size kitchen tap.

• Series equipment    ○ Special accessories

# KITCHEN

- **Plenty of headroom in the sleeping area**

The sleeping area features above-average, generous headroom. This also guarantees a relaxed sitting position.

- **Easily accessible clothes cupboards and shelves**

In many models, sturdy steps make it easier to reach the clothes cupboards above the beds. Shelves create additional storage areas.

- **Optimal ventilation**

The standard Mini-Heki roof hood and up to two vent windows ensure a supply of fresh air.

- **Bed extension**

The single beds can quickly be made into a large bed area using an additional upholstered unit.

- **FROLI comfort bed system with cold foam mattress**

The optional comfort bed system from FROLI adapts to the body's contours. Breathable cells in the cold foam mattress provide a restful sleeping climate and pleasant ventilation.

- **Central light switch in the sleeping area**

Every Siesta is fitted as standard with a practical touch switch for the interior lighting.

- **Textile panels in over-cab bed**

The upholstered textile panels provide even more cosiness in the over-cab bed. The two newspaper pockets offer space for evening reading.

- **Flexible reading spotlights**

The two LED reading spotlights ensure relaxed night-time reading.

# BEDROOM

- **Clever shower column**

The shower panel features numerous storage compartments for shampoo and shower gel. The attractive shower head matches the sophisticated design perfectly.

- **Generous storage options**

All care products can easily be accommodated in the under-sink cupboard and the mirrored cabinets.

- **Practical THETFORD rotating toilet**

The cassette toilet can be twice rotated by 90 degrees. This ensures the optimal use of space.

- **DOMETIC SEITZ Mini-Heki roof hood**

Light in, damp out! All bathrooms are equipped with DOMETIC SEITZ Mini-Heki roof hoods.

- **Fixed shower screen**

Instead of the standard shower curtain, a fixed shower door can also be supplied. (depending on model)

- **LED lighting**

The LED spotlights provide a pleasant light in the bathroom area.

- **Sturdy door fittings**

The washroom door is equipped with sturdy lock fittings. It will therefore remain firmly closed whilst driving.

• Series equipment   ◦ Special accessories

# BATHROOM

- **On-board control panel above the entrance door**

The intuitively operated control panel is easily accessible above the entrance door.

- **Latest battery management**

The HELLA battery sensor constantly measures the charge status of the starter battery and 92 AH-AGM on-board battery as well as its consumption values and charging currents. The colour display means the power supply always remains in sight.

- **Efficient LED lighting technology**

Good for the environment: the modern lights that make up the LED lighting have a long lifespan and reduce power consumption.

- **Central light control panel**

The lighting can easily be controlled by pressing buttons on the central light control panel.

- **Insulated and heated waste water tank**

The waste water tank is fitted under the floor on all Hobby motorhomes and as an option is also heated with additional insulation and hot air.

- **Easily accessible waste water nozzle**

The sluice gate for the used water is also located in the heated area of the waste water tank. Frost therefore has no chance.

- **Frost-protected fresh water tank**

The fresh water tank is installed in one of the seat benches so that it is protected against frost. This also means that it is easy to clean the tank.

- **Rear-ventilated storage cupboards**

Optimal circulation of the rising radiator heat: ventilation slits in the cupboards and a large-enough gap between winter ventilation and the exterior wall prevent damp spots and mildew.

# ON-BOARD TECHNOLOGY

- **TRUMA combination hot air heater with hot water boiler**

The hot air pipes from the TRUMA combi-heater distribute heated air optimally through the vehicle and ensure cosy temperatures. The hot air can be controlled separately in the over-cab bed areas.

- **Digital TRUMA control panel for heater**

The combi-heater is operated using the TRUMA CP-PLUS-6 digital control panel with timer function, individual night-time reduction and temperature sensor.

- **Easily accessible frost monitor valve**

The zero current safety drain valve automatically empties the boiler if there is a risk of frost. The outlet pipe cannot freeze therefore and the water supply is assured. (Installation situation depending on model; fig. may differ)

- **Central gas distributor in the kitchen**

The shut-off valve on the gas distributor is easily accessible in the kitchen.

- **Practical outside shower**

The outside shower allows you to cool off on hot days. It can also be used to conveniently rinse off pieces of equipment.

- **DOMETIC FreshJet roof air-conditioning unit**

The roof air-conditioning unit features four controllable airflow settings. The comfortable lightweight works economically and quietly.

- **PIONEER AVH-2500BT Moniceiver**

Besides functioning as a DVD player, navigation system and a display for the reversing camera, the AV tuner is used for wireless phone calls via Bluetooth and as a central media player. (Subject to change of model in the current season)

- **TV equipment**

The TV arm, which can be pivoted through 180 degrees, allows a good view of the 19" LED television from all positions. Reception is provided by a digital SAT receiver and various satellite antennae.

• Series equipment   ◦ Special accessories

# ON-BOARD TECHNOLOGY

- **Insulated garage with large opening angle**

The fully insulated garage hatches secured with solid two-point toggle locking have a large opening angle. The garage spaces can also be heated.

- **More room thanks to lowered rear**

The lowered rear of the low-frame chassis (not in the V60 GF and A55 GS Sport) ensures maximum garage dimensions. An extra-thick floor insulation made of XPS protects against frost.

- **Sturdy lashing rails**

Adjustable lashing eyes, in which support straps can be fastened, ensure that loads are safely secured. (depending on model, standard in the A55 GS Sport)

- **Roof rails with rear ladder**

The roof rails with rear ladder provide space for surfboards or roof boxes.

- **Robust interior garage coating**

All garages come with a robust and easy-to-clean plastic coating.

- **Spacious gas cylinder locker**

Whether they are placed behind each other or next to each other, gas cylinders have plenty of room in the spacious storage locker. That guarantees an easy change of cylinders. (model example)

- **Stable THULE bike carrier**

Perfect for one, two or three bikes – THULE bike carrier.

## STORAGE SPACE

- **Cupboards with plenty of storage space**  
The doors that open wide upwards allow plenty of headroom. Extra-sturdy hinges ensure a high opening and locking force.

- **Firmly closing furniture handles**  
The shapely furniture handles on the cupboards keep the doors firmly closed.

- **Shelf in cab**  
The all-round shelf gives direct access to everything that drivers and passengers need to quickly get their hands on. (not Alkoven)

- **Clothes drawer under the bed**  
In vehicles with single beds, clothes drawers under the slatted frame provide additional storage room.

- **Wardrobe with pull-out rail**  
The wardrobe under the bed features a pull-out rail, which makes it much easier to load. (depending on model)

- **Shoe drawer in entrance area**  
Dirt stays outside: the shoe drawer with practical soft-closing under the seat bench is standard in many models.

- **Large wardrobe by the bed**  
There is room for plenty of clothes in the tall cupboards. The additional storage compartments in some models allow even more tidiness. (depending on model)

- All wardrobes are fitted with LED lighting as standard.

• Series equipment    ○ Special accessories

• Series equipment – Not available

<sup>1</sup> The technically permissible gross weight must not be exceeded under any circumstances.

<sup>2</sup> The weight of the vehicle in ready-to-drive state corresponds to the weight of the empty vehicle, including lubricants, on-board tools, spare wheel (repair kit where appropriate), fuel (100%), extra battery, all standard factory-fitted equipment and 75 kg for the driver in addition to the basic equipment. Basic equipment comprises the weight of the fresh water and gas containers, which are filled to 90% of their capacity. The basic fittings for all models weigh 110 kg.

<sup>3</sup> The load corresponds to the difference between the „technically permissible gross weight“ and the „weight in ready-to-travel state“. This value must take account of passengers, optional accessories and personal items.

<sup>4</sup> The towing attachment is a special accessory. Please comply with the maximum permitted towing weight.

<sup>5</sup> With the weight capacity increase option, the number of seats increases to 6.

# TECHNICAL DATA

These features are in all SIESTA motorhomes:

### BASIC VEHICLE/CHASSIS

- ✓ Driver's airbag
- ✓ Diesel particle filter
- ✓ Electronic immobiliser
- ✓ Extended wing mirrors
- ✓ ABS (anti-locking brake system)
- ✓ ASR (anti-slip regulation)
- ✓ EBD (electric brake force distribution)
- ✓ ESP (electronic stability programme)
- ✓ Mud flaps front
- ✓ Tyre repair set
- ✓ Hazard triangle and first-aid kit
- ✓ Additional seat-belt anchorage with lap belts against the direction of travel (only in A65 GM Family and A70 GM)
- ✓ Insulated and heated waste water tank
- ✓ TV equipment

### CAB

- ✓ Remote control central locking
- ✓ Electric window winders
- ✓ Swivelling driver and passenger seats with improved comfort
- ✓ Curtain in the driver's cab
- ✓ Passenger seat can also be moved sideways (A60 GF)

### BODY

- ✓ GRP roof
- ✓ GRP undercarriage
- ✓ DOMETIC SEITZ Midi-Heki roof light 700 x 500 mm with pleated fabric for black-out and insect protection (not in A55 Sport and A60 GF)
- ✓ DOMETIC SEITZ Mini-Heki roof light 400 x 400 mm with pleated fabric for black-out and insect protection

- ✓ Side windows can be opened out
- ✓ Installation preparation for reversing camera
- ✓ Body door with window and storage compartments
- ✓ Entry lights (LED)
- ✓ Retractable electric easy-access step
- ✓ Sturdy apron strip made of aluminium
- ✓ Insect screen for entrance door
- ✓ Elegant awning by THULE OMNISTOR

### LIVING COMPARTMENT

- ✓ All windows: Combi-cassette with black-out and insect protection pleated fabric
- ✓ Wardrobe with LED lightning
- ✓ Folding pleated blind system in the cab

### KITCHEN

- ✓ DOMETIC-Slim Tower fridge, 140 litres incl. removable 12 litre freezer compartment (depending on model)
- ✓ DOMETIC-refrigerator, 96 l with 9-litre ice box (in VAN and Alkoven models)
- ✓ Stainless steel three-flame cooker with glass cover and electric ignition
- ✓ Stainless steel sink with glass cover
- ✓ Kitchen drawers in convenient size with full extension, soft-close mechanism and push-locks
- ✓ Cutlery insert
- ✓ LED work surface lighting
- ✓ Kitchen sockets

### SLEEPING

- ✓ Cold-foam mattress
- ✓ Drop-down bed, mechanical (T65 HFL)
- ✓ movable slatted frame (in Alkoven models)

### BATHROOM

- ✓ Compact washroom with integrated shower cubicle
- ✓ Side washroom with moving washbasin for showering (only in the T60 FL and T65 HFL)
- ✓ DOMETIC SEITZ Mini-Heki roof light 400 x 400 mm with pleated fabric for black-out and insect protection
- ✓ THETFORD cassette toilet with electric flush
- ✓ Sturdy door fittings

### WATER/GAS/ELECTRICITY

- ✓ HOBBYTherm® thermo-function floor with XPS heat insulation
- ✓ Tandem submersible pump
- ✓ Gas regulator with over-pressure protection (DIN EN 12 864) and hose line
- ✓ Central gas distributor in the kitchen unit
- ✓ On-board battery AGM 92 Ah
- ✓ Power supply 12 V/230 V and antenna socket
- ✓ On-board control panel
- ✓ LED living room lighting
- ✓ Light control panel
- ✓ Additional spotlights

### HEATING/AIR CONDITIONING

- ✓ TRUMA heating Combi 4 (in VAN models)
- ✓ TRUMA heating Combi 6 E
- ✓ TRUMA-LCD control panel Combi CP Plus
- ✓ Hot water supply in the kitchen and washroom
- ✓ Frost-protected fresh water tank
- ✓ Rear-ventilated storage cupboards

NOTE

The models featured in the brochure also currently have optional extras or decoration that are not part of the standard scope of delivery. Deviations in terms of structure and colour compared to the featured furnishings are subject to change provided they have to do with the nature of the materials used and are found in the trade. The same applies to technical changes to the vehicle provided the product quality remains the same overall or is improved and the purpose of use is not impaired.

Correct as of July 2013
